EWHA WOMANS UNIVERSITY

Ewha, a University with an Even More Promising Future

As a global leader and a pioneer for over 130 years, Ewha is reaching out to shape the future through advanced science and technology and innovation in the fields of knowledge and information. Based on EwhaTECH and the experiences, values, and emotional intelligence of women, Ewha is striving to accomplish its vision of “Women Intellectuals Pioneering the Future” through the empowerment of women’s capabilities for the future, their engagement in society and community, and exploration of the world.

Women Intellectuals Pioneering the Future

EWHA WOMANS UNIVERSITY uses the alternative term ‘womans’
Ewha is dedicated to nurturing global leaders in high-value future industries and empowering innovative and responsible women leaders.

Based on the principle of academic autonomy, Ewha introduces the self-designed semester in 2015 to allow students to independently plan their educational aim to help Koreans improve themselves, opening up new opportunities for life-long education. As of 2018, approximately 4,300 students live on campus, many of whom benefit from a demand-specific planning scholarship designed to provide scholarship funding to students without regard to grades or financial difficulties. In 2016, the THE Portfolio, a demand-specific planning scholarship, was launched. The THE Portfolio collects information on students' educational needs and then provides tailored suggestions for learning activities, business start-ups and career path design.
