Message from the President

We invite you to join Ewha's vision as we embark upon this new era. Thank you.

Ewha is now nearing our 150th anniversary. Reflecting on the footprints of early Ewha, we are in a unique era that will form Ewha's new path. We have the opportunity to reposition Ewha as a world-class university in the global network, contributing to solving global challenges such as carbon neutrality and healthcare.

In keeping with the era of digital transformation, Ewha is leading the field of future education, with a focus on the convergence of education, research, and industry. Ewha West Campus – Innovative hub – will be recreated as “Ewha West Campus,” a space for interdisciplinary convergence, research, university-industry collaboration, and business startups that will pioneer the future education environment.

Creativity and Innovation Flourish on a Cutting-edge Futuristic Campus

A Creative and Innovative Platform

1. Enhancing Financial Efficiency and Streamlining System
2. Expanding Ewha's Convergence Research
3. Creating an Innovative Education Platform
4. Leading to a Sustainable Society

Enhancing Support

World Class Performance Creation in the Realm of Creative Research

Creative Research Department of Physics

Premier Research Initiative

Director (Department of Physics)

Eun-Ah Kim Distinguished Professor

Round 2 Project Teams

Professor Lee Hyukjin and statistical science research.

Professor Roh Tae-Young bioindustry.

Professor Yoon Juyoung for realizing a sustainable future society.

Creative Research Department of Life Sciences

Director (Department of Life Sciences)

Harmonious Posthumanity: the Age of Coexistence

Professor Yoon Juyoung and Professor Lee Hyukjin for realizing a sustainable future society.

Creative Research Department of Food Management

Director (Chemistry and Nanoscience Major)

Innovative Sustainable Core Center for Food Management with Carbon

Professor Ahjeong Son and statistical science research.

Creative Research Department of History

Director (Department of History)

History for Peaceful Coexistence

Professor Yoon Juyoung and statistical science research.

Creative Research Department of Communication

Director (Department of Language and Communication Division of English)

Innovative Sustainable Core Center for Communication Society

Professor Yoon Juyoung and statistical science research.

Creative Research Department of Energy Systems Engineering

Director (Department of Energy Systems Engineering / Sustainable Cities and Communities)

Vitalizing Ewha for Climate Risk Management

Professor Ahjeong Son for realizing a sustainable future society.

Creative Research Department of Environment

Director (Department of Environment)

Creating an Environment Conducive to World-Class Research

Professor Yoon Juyoung for realizing a sustainable future society.

Creative Research Department of Social Welfare

Director (Department of Social Welfare)

Future Social Value and Coexistence

Professor Lee Hyukjin for realizing a sustainable future society.

Creative Research Department of Natural Sciences

Director (Department of Natural Sciences)

Creative Research Department of Life Science

Director (Department of Life Sciences)

Innovative Sustainable Core Center for Life-science Integrated, Vitalizing Ewha for Climate Risk Management

Professor Ahjeong Son for realizing a sustainable future society.

Creative Research Department of Business

Director (Department of Business)

Vitalizing Ewha for Climate Risk Management

Professor Ahjeong Son for realizing a sustainable future society.

Creative Research Department of Social Science

Director (Department of Social Science)

Creating an Environment Conducive to World-Class Research

Professor Yoon Juyoung for realizing a sustainable future society.

Creative Research Department of Education

Director (Department of Education)

Innovative Sustainable Core Center for Life-science Integrated, Vitalizing Ewha for Climate Risk Management

Professor Ahjeong Son for realizing a sustainable future society.

Creative Research Department of Law

Director (Department of Law)

Creating an Environment Conducive to World-Class Research

Professor Yoon Juyoung for realizing a sustainable future society.

Creative Research Department of Law

Director (Department of Law)

Innovative Sustainable Core Center for Life-science Integrated, Vitalizing Ewha for Climate Risk Management

Professor Ahjeong Son for realizing a sustainable future society.

Creative Research Department of Medicine

Director (Department of Medicine)

Creating an Environment Conducive to World-Class Research

Professor Yoon Juyoung for realizing a sustainable future society.

Creative Research Department of Nursing

Director (Department of Nursing)

Innovative Sustainable Core Center for Life-science Integrated, Vitalizing Ewha for Climate Risk Management

Professor Ahjeong Son for realizing a sustainable future society.
### Ewha’s History of Beasts and Firsts Opens Up a New Era
