① Each class has its own **Class Model** – either *Hybrid* or *Online only*.

② For Hybrid classes, **check(✓) offline** if your preferred method is on-site lecture. Do not check when you want the online version of the lecture. Make sure to [Save](#) before leaving this page.

KEEP IN MIND :

- **Be sure to save your data before each deadline.** No changes are allowed after the second (final) round.
- Classrooms may be changed based on the number of students who have chosen to take the course offline during the first round in the vacation. Therefore, **the number of students who can change to offline during the second round is *restricted on first come first served*.** It is due to the limited number of classroom capacities and to protect everyone's safety and disinfection.

Q&A

- **Why does my class model says “TBD(미정)?”**

No.	Course No.	Class	Course Title	Course Classification	Number of class hours	Credit	Instructor	Class Model	Check Offline
1	Liberal Arts Courses	3	3	TBD	<input type="checkbox"/>

: Your class model is set **after the course registration period** since the number of registered students will decide whether it's a 'hybrid' or 'online only' model. Setting class model data may take a while after registration period.

- **My class has less than 50 people but the selector button does not work!**

: Some courses, due to their unique nature, are not suitable for hybrid model. Those are:
